

## MINERAL PRDCTS. MAGNESIUM PLANT PROVES SUCCESS

That the new magnesium demonstration plant of the Mineral Products Co. has proven a success after a few days' trial is the text of a cablegram received by the Honolulu stockholders from Manager Anderson. The cablegram follows:

"The magnesium demonstration plant started up on the 19th. The results so far are very encouraging. The plant will be run for two or three weeks until all data is learned which is essential for the larger commercial plant. Both Mr. Pike, the chemical engineer, and Mr. Wye, the chemist, are confident of success."

The first assessment for the use of the mineral products of the Mineral products is now being called for. The call is for two cents a share and was issued on October 17. The assessment is payable before November 1, after which, if not paid, it will bear interest at the rate of one per cent per month. The stock upon which the same has not been paid will become delinquent on December 30 and may thereafter be sold.

## MORRIS CREATES FAVORABLE VIEW AMONG JAPANESE

(Special Cable to Nippon Jiji)  
TOKIO, Japan, Oct. 22.—A radio message was this morning received here from the S. S. Empress of Japan that Mr. and Mrs. Rolland Morris, newly appointed American ambassador to Japan and his wife, are among the passengers on board the big Canadian liner.

Mr. Morris, who is generally regarded as one of the most intimate friends of President Wilson, was picked by the latter, after careful consideration, from among the many candidates to succeed the late George W. Guthrie as the United States ambassador to Japan. Mr. Morris' recent declaration that he will always strive as hard as he can to serve for the good of the United States as well as Japan, has created a favorable impression on the Japanese people in general. The tones of the Tokyo press in heralding the approaching arrival of the new American ambassador are in uniformity that the appointment to the Japanese post of an able diplomat in the person of Mr. Morris is sufficient proof that President Wilson is sincere in his desire to see the United States and Japan on the most friendly relations.

## SECOND ARSENE LUPIN AT WORK IN HONOLULU

A local Arsene Lupin, a counterpart of the famous character of fiction, whose favorite pastime was to foil the police of two continents, and who made a practice of disguising himself as an expressman and driving up to a residence and carting away furniture, has appeared in several of Honolulu's residential sections. With a squad of Chief McDuffie's detectives thrown about the residential districts, the strange marauder's activities are becoming less and less, but reports still come to police headquarters that the unknown is at work. Early this morning, Detective Apana, of Chief McDuffie's squad, arrested Tom Silva, and lodged him at headquarters for investigation.

Apparently someone has a mania for lanai furniture, or else they are supplying some second hand stores with the wares. During the early hours of the morning, lanai furniture has mysteriously disappeared. One man, who lives on Kinau street, heard a noise on his lanai Saturday night, and upon investigation, discovered one of his lanai chairs disappearing in the back of a wagon standing in front of his house.

Chief McDuffie said this morning that he had placed a large detail of his lieutenants in the various residential districts, and mounted officers and motorcycle police have been ordered to the districts where the marauder is believed to be working. Complaints have been received from the Makiki, Manoa, Punahou and even the Kaimuki districts.

## CORPORAL PRICE IS VICTIM OF TYPHOID

With the death on Saturday of Corporal Alonzo Price at Schofield Barracks, typhoid fever has claimed its fourth victim from that post since the start of the present outbreak. Corporal Price was 25 years of age and a native of Virginia. He was a member of Company M, 1st Infantry. Death occurred at the post hospital.

According to word from Schofield today the total of positive and suspected cases was 78 on Saturday. These are evenly divided and with the four deaths make a total of 82 since the start of the disease.

## FORMER RAILROAD MAN OFFICER FOR BRITAIN

News has reached here that Eugene Donnelly, former O. R. & L. conductor, is now a lieutenant in the Royal Engineers, a regiment which was recruited in Canada and is now training near Kent, England.

Mr. Donnelly has had a career of adventure. In the last few years he has been with Geothals in Panama; in Alaska, where he worked on the St. Michaels railroad, and in Honolulu. He was taken in the service as a sergeant and shortly after his arrival in England was given his promotion.

Harper & Furrer, architects, announce that Kenneth D. Marr was admitted to the partnership and that henceforth the firm will be known as Harper, Furrer & Marr.

## LIBERTY LOAN IS NOW \$3,756,900

(Continued from page 1.)

The Federal Reserve bank at San Francisco as near Saturday as possible, and those mailing subscriptions to the coast must post their letters not later than 2:30 o'clock tomorrow afternoon. After that hour all subscriptions will be telegraphed to the mainland by the executive committee.

The sales committee will meet in the chamber of commerce rooms at 9:30 o'clock tomorrow morning. All bond salesmen are urged to be present.

The pledges reported by the various posts follow:

|                         |           |
|-------------------------|-----------|
| 25th Infantry (partial) | \$131,950 |
| 1st Infantry            | 122,250   |
| Coast Artillery         | 126,200   |
| 9th Field Artillery     | 109,000   |
| 32nd Infantry           | 107,850   |
| 2nd Infantry            | 102,250   |
| 4th Cavalry             | 99,850    |
| 1st Field Artillery     | 87,000    |
| Quartermaster corps     | 29,600    |
| Medical Dept.           | 27,700    |
| Engineers               | 19,000    |
| Signal corps            | 16,200    |
| Ordnance                | 7,850     |
| Headquarters            | 3,350     |

Total ..... \$1,020,850  
Jumping from seventh place on the residential liberty loan subscription list held Saturday, the 25th Infantry with only a partial report today took the lead for the entire department with a total of \$131,950. This was a gain of \$75,150.

This spurt on the part of the 25th placed the 1st Infantry out of a first place held on Saturday. The 1st Infantry evidently slackened up over the weekend, subscribing only \$4950. The 32nd Infantry, which held the lead on Friday of last week, has dropped to fifth place, though their gifts show a higher per capita than do those of the 1st Infantry.

By posts the subscriptions are as follows:  
Schofield, \$728,450; Coast Defense, \$146,050; Shafter, \$129,800; Department hospital, \$9150; Department headquarters, \$3350; Ordnance depot, \$4050.

The horn-handed horseshoers at the Schofield school are still in the lead for detachment per capita giving. The army men still have three days for subscriptions, as the closing date is October 25.

## WOMEN'S SWIMMING MEET PRELIMINARIES FRIDAY

The committee in charge of the Women's swimming meet to be held in the Y. M. C. A. Saturday night announced at noon today that instead of holding the preliminaries Thursday night they will hold them Friday night at 7:30 o'clock. There will be three races in 50 yards—one for girls under fifteen, one for novices and an open 50 yard dash.

## JURY TOMORROW.

Circuit Judge Ashford's trial jurors have been notified to be in court at 9 o'clock tomorrow morning, according to instructions this afternoon.

## GOVERNOR SAYS WATER IS FREE FROM TYPHOID

Insists There Never Was Germ and Never Will Be While Nuuanu Is Guarded

"There's not a typhoid germ in the valley," said Gov. Pinkham this morning. "Moreover, there's not going to be while the national guard patrols the Pali road and guards the Nuuanu water supply. All this talk about typhoid is simply sensational to get the people excited. There's typhoid in town, of course; always is, but there's not enough to get scared about."

Dr. Pratt, of the health board said he had no statement to make. Asked if there were as many as a hundred cases in town, he shook his head. He said practically every case in town that had been reported was in either the Queen's or the Japanese hospital. F. Kirchhoff, superintendent of water and plumbing, said that the health office had not been able to trace a single case of typhoid to Nuuanu.

Queen's hospital has 14 cases, all of whom are doing well. Farm Corn, who has been the sickest of any of the typhoid patients, seems now pretty sure of recovery. The Japanese hospital reports five cases, all on the road to recovery. Of the patients in the Japanese hospital two come from Waipahu, where the disease seems to have had its beginning at a luau, one from Manoa, one from the slope of Punchbowl and one from Castner.

Regarding anything definite and dependable as to the original source of contamination, nothing has been ascertained. The fact has been pretty well established that the water at Schofield was polluted by a Japanese laborer typhoid carrier who was working on one of the ditches above one of the reservoirs from which water for Schofield and Castner was obtained. This man, so physicians say, may have been a natural carrier of the disease, although the fact that he developed typhoid himself later seems to contradict this supposition, as natural carriers of typhoid rarely develop the disease themselves.

While the typhoid situation at Schofield is still serious, being in what might be called epidemic form, it is not alarming, and is confined, mostly, to the civilian population which has not yet been inoculated against the disease, very few of the men in the service having developed any traces of typhoid.

Work on cleaning the Nuuanu reservoirs is progressing. Supt. F. G. Kirchhoff of the city and county water and sewers department says that No. 3 will be ready to receive water by Wednesday, he thinks, if it does not rain. The lower part has been sluiced out, and the upper part will have the heavy deposit of silt that is in it scraped out and carted away in wheelbarrows beyond the reach of overflow.

## LOCAL AND GENERAL

More than 500 persons attended the formal opening of the Shingon temple, Sheridan street, yesterday and Saturday.

Mrs. Ritchie Rosa has been appointed on the stenographic force in the office of the city and county attorney and began her duties this morning.

Among the passengers arriving here on Wednesday is Mrs. A. H. Smith, who returns home after visiting relatives and friends on the mainland for over a year.

Pacific Rebeck Lodge, No. 1, I. O. O. F., will give a Halloween party on the roof garden of Odd Fellows' building on Thursday evening next after its regular meeting. The attendance will be limited to Odd Fellows, Rebeck's and their families.

Collectors for the Red Cross campaign now being carried on by the Lusitania society, will canvass the entire Territory of Hawaii for contributions to the Portuguese Red Cross fund. Circulars, outlining the plans of the campaign, and the cause for which the contributions are to be used have been sent broadcast throughout the islands. The circular is printed in both Portuguese and English.

No more guides for pedestrians will be provided from the national guard along the Pali road before Saturday, if at all. It has been the custom to supply a man from the guard to take pedestrians, who had the proper credentials, back of the line of patrol, but so few people have shown a desire to use the guides that it was decided this morning to withdraw this permission. Later it may be decided to provide pedestrian guides for Saturdays and Sundays. Naturally, no one is allowed to go behind the line of patrol without a guide.

## FILM "THE SLACKER" VIEWED BY OFFICERS

Officers from army headquarters turned out en masse today to witness a special showing of the film "The Slacker" at the Hawaii theater. Among those present were Brig. Gen. J. P. Wissner, Maj. L. W. Redington, Maj. Henry C. Merriam, Maj. Charles G. Mettler, Capt. Harold F. Loomis, and Lieut. H. P. Tuohy. A number of city and territorial officials were also present. Pleading comment on the film was heard from those who saw it.

## WAIMEA RIVER CONSTRUCTION BEING HELD UP

Through a certain section of the act passed by the 1917 legislature all construction work on Waimea river embankment, Kaula, is being held up until Land Commissioner Bertram G. Rivenburgh can arrange for enough land sales to total the \$50,000 set aside by the legislature for the work. Unlike other appropriations where money was to be repaid through the sale of public lands, this cannot be used until full arrangements are made for such sales sufficient to total \$50,000. The section is almost in the form of a "joker" for territorial officials are frank in stating that they did not know the bill was thus loaded.

Incidentally the section prevents the sale of any leases for the Hanalei wet lands and these leases have been postponed indefinitely until arrangements have been completed for the sale of enough of these to repay the embankment expenditure. If any land is left in this section after the sales these will be leased for rice planting probably. Commissioner Rivenburgh says. Actual sales will be for two lots.

The lease of a right of way for ditches and flumes from one piece of Gay & Robinson land to another piece across government land has been postponed until November 10, because of a protest from the people of that district.

There are about 1000 acres in the government piece which citizens are desirous of homesteading. It is said, however, that the land will be of little value unless they can get water on it from the plantation. An effort to do this is now being made through negotiations with the plantation.

A new angle has been given the George A. Marshall-Alice Marshall divorce case by the filing in circuit court Saturday of a cross libel by the wife. She alleges cruelty and non-support, and asks alimony of \$75 a month.

## NOTICE

Meeting of the Liberty Bond sales agents, Tuesday, at 9:30 a. m., at the Chamber of Commerce rooms.—Adv.

## THE SCIENCE OF CHIROPRACTIC

has demonstrated that the cause of disease is displaced or subluxated segments of the spinal column, and by adjusting that cause, the condition can be corrected to the extent that the patient will recover from whatever ailment afflicts him.

F. C. MIGHTON, D. C.  
204-5 Bostick Bldg. (Over May's.)

## SOME FISHERMEN MAKE ABOUT 26 CENTS A DAY; OTHERS MAKING \$2.10

Just why there is a scarcity of fish in the Honolulu market is shown in an interesting table compiled by J. F. Child, assistant executive officer of the territorial food commission. These figures show that, in one instance this month, three fishermen were at sea for 10 days and, after having sold their catch at 19 cents a pound, each man's share amounted to 59 cents a day.

Three other fishermen were at sea for 13 days, sold their fish at 20 1/2 cents a pound, and realized 26 cents a day. Three others were out 14 days and each made 85 cents a day with fish selling at 19 1/2 cents a pound. Two men stayed out eight days and each made \$2.10 a day, the fish selling at 20 cents a pound.

"No wonder the fishermen do not want to go to sea when this is all they can make," declares Mr. Child.

## EYE TEST CAUSE OF MEN BEING DROPPED

Failure to pass the eye test, not general physical inability, is said to be the reason for the dropping of four men from the training camp rolls on Saturday. In the strenuous life of the camp, marches, trench digging, bayonet charges and all other tests of the sort they had made good, it is said.

## An Unusual Opportunity!

Among the many bargains we are now offering in

# Used Pianos

Is a splendid Autopiano. This instrument is of mahogany, has recently been thoroughly overhauled, tuned and polished; and represents a real bargain to anyone who enjoys first-class music yet who cannot afford a new piano. The terms we will allow on this instrument are extraordinary and will allow any person of moderate means to purchase it.

Visit us today or tomorrow and let us demonstrate its rich tone. Its beauty will appeal to you

Price \$400
